

I have before me the official page report which was made to the Southern Governors Conference in Washington March 13, and in view of yesterday's action by the Hempstead County Democratic Central Committee endorsing Governor Ben Laney, the report of the Southern revolt it must be well to quote a few paragraphs.

Regarding the poll tax repeal bill the Southern governors said: "The principle is as old as the constitution of the United States, and as new as the most recent decision of the supreme court on the issue, that there is no federal suffrage. The power to create such suffrage was not one granted to the federal government in the constitution. The several states are the source of the right of suffrage. This principle has always been regarded as one of the bulwarks of the liberty of the American people, because it guarantees them against the ability of a federal administration to perpetuate itself in power through federal control of the ballot boxes of the nation."

"Another legislative proposal is the so-called anti-lynching law. The states, either by common law or by statute, or both, deal with and punish the crime of murder. . . . The federal government has no right to legislate on crimes within the states. . . ."

"Another of the proposals in the (Truman Civil Rights) program is the enactment of legislation dealing with the employment of private business and discharge of employees of private business and industries. Business, large and small, would thereby be subjected to a substantial measure of federal control and supervision; private businesses would become virtually quasi-public; and the federal government would bring its agencies into intimate contact with almost every phase of the daily life and activities of the American people throughout the nation. The people affected by the law would be tried by jury on the issues of fact arising between them and the government, and would be deprived of access even by the federal courts in their own states. . . ."

Under cover of the so-called Civil Rights program, a federal police agency is proposed to be established and built up. This federal police agency, like the ill-famed Gestapo, would rove the land, inquiring into the daily lives and activities of the American people, interfering with the conduct of elections and the operation of private business; breeding litigation; intervening in private lawsuits; originating prosecution and proceedings; securing convictions, arrests and intimidation by their presence and visiting upon the American people all of the potential evils of a so-called police state."

Radio Merits a Chance

At Freedom of Expression of an American newspaper can print only one side of a controversial story. He can distort a news story, unless the result is libelous. He can follow an editorial policy by an advertiser or a political boss or any other outside influence. There is no law forbidding any of these things. But there are many few newspapers that indulge in them. The chief reasons are honesty, competition and pride of craft. That is, they are in the knowledge that the proprietors and employees of our newspaper are the heirs and custodians of a great legacy, the freedom of the press. Within the limits of human frailty, we believe the American press can be proud of its trustworthiness. There have been abuses of its freedom, but these have not been so serious or so general as to threaten its withdrawal from the public's confidence and approval. Those papers that survive have received the approval and, with a few exceptions, merited the confidence. As for the exceptions—well, the customer can always buy a different one.

What would the public think if American newspapers suddenly were prohibited, by law or threat, from expressing their own opinions? One can imagine the loud and general protest that would follow. But that is exactly the situation in radio today, and has been the situation almost since the birth of the medium. The radio is a commercial enterprise buying broadcast time may express all sorts of opinions. But the persons who operate a station or network must not "editorialize."

Present efforts to lift this FCC ban are making the same old objections. Both sides of the story would not be presented, objectors say. The people would be at the mercy of big business and saturated with corporate viewpoints. The newspaper profession potentially threatens all these horrid possibilities. But nobody wants to legislate the editorial page out of existence, just to be safe. Nobody wants to pass laws requiring both sides of a story to be presented in a letter to the editor department where readers may have their say. Continued on page two

## British, French Ministers to Come to U. S. for Parley on Key European Issues

### British Rush Troops to Judean Hills

Jerusalem, March 23 — (AP)—The British rushed more tanks and artillery into the Judean hills today to smash the fiercest Arab-Jewish battle in Palestine's recent history. The fight has raged four days. An hour after dawn British headquarters said the battlefield was quiet. Tanks ranged the dirt roads leading to Jewish Hartuv and Arab Ishta, main points in the battle, part of fierce fighting which claimed 140 lives yesterday alone. Army chiefs denied reports that the British reinforcements were sent on a "punitive raid" after rumor spread which it was learned reinforcements were heading towards Ishta, where the mutilated bodies of two British soldiers were found a few hours before.

### Flood Damage Spreads Over Wide Section

By United Press  
Widespread thunderstorms and showers threatened to increase flood damage today over sections of an 11-state area where high water had forced thousands from their homes.

U. S. engineers warned that major floods may develop if the rains continued or were heavier than expected. The weather bureau predicted that the showers would sweep eastward today from North Dakota, Nebraska, Iowa and Missouri, already suffering damage due to high water, into the remainder of the flood area, Illinois, Wisconsin, Indiana, Michigan, Ohio, Pennsylvania and New York.

Fifty-six persons had died due to onrushing floods and other violent weather conditions in the past five days. About one half inch of rain was expected at most places but forecasters said heavy thundershowers could cause localized disasters.

Many highways were under water in the affected areas. About 5,000 persons were homeless and others were preparing to flee the rising waters.

The worst trouble spots were at Quincy, Ill., and Binghamton, N.Y. More than 150 volunteers worked all night strengthening a levee at Quincy which threatened to burst as the Mississippi river rose toward a temporary crest.

Engineers at Quincy said their gauges showed a reading of 20.93 feet early today, only 0.3 feet higher than at noon yesterday.

The slow rise indicates that the water is slackening, an engineer said. "However, another crest is coming down the Des Moines river and probably will hit the Mississippi tomorrow. That will cause another rise here."

The sheriff's office at Quincy said the levee south of town where the volunteer crews were sandbagging was expected to reach 21.3 feet about 7-12 feet over flood stage.

Capt. L. Ford, coast guard in command of the St. Louis, said that task forces had been sent to Quincy to help lowland residents evacuate.

Binghamton was nearly isolated by the Susquehanna and Chenango rivers which flooded 3,200 homes and forced 1,500 families to flee. About 5,000 children were away from school. All highways around the city were flooded.

MANDATE ENDS MAY 15  
London, March 23 — (AP)—The foreign office reported today the British cabinet has confirmed a decision to surrender the Palestine mandate on May 15 and to withdraw all British troops by Aug. 1.

### British Rush Troops to Judean Hills

Paris, March 23 — (AP)—Foreign Minister Georges Bidault's press secretary said today Bidault will go to Washington next month to confer with Secretary of State Marshall and British Foreign Secretary Ernest Bevin.

A spokesman for the British foreign office in London denied the meeting was planned. Informed of the denial, the press secretary said:

"We were given to understand that Bevin would also go."

He said the only thing undecided is the exact date.

The British foreign office spokesman in London had told a regular midday news conference "there is not truth in the report that Mr. Bevin and Mr. Bidault will fly to Washington next month."

Informing that the Paris announcement was by Bidault's secretary, the London foreign office made a check, and then its spokesman said:

"Mr. Bevin hasn't got it in his engagement book. We know of no such meeting."

French diplomatic quarters said the three ministers will study possible U. S. military guarantees to the western European union created last week by Great Britain, France, Belgium, the Netherlands and Luxembourg.

These quarters said they also will examine how the European recovery organization being created here can best cooperate with the American Marshall plan administration.

The Marshall plan is expected by Europeans to become law by June.

The spokesman said:

"The Italian answer came only a few hours after great throughs roaring 'Viva Trieste!' welcomed Premier Alcide De Gasperi and Foreign Minister Count Carlo Sforza back to Rome."

The spokesman emphasized that the Italian government had received no official word of the reported proposal regarding Gorizia. He said he was speaking entirely on the basis of press reports.

Asked what other hopes of treaty revision there was in regard to the Italian colonies, the spokesman said:

"On the part of France, the thesis has been confirmed in the most absolute manner that she wishes to give Italy administration of Eritrea, Somaliland and Libya."

France has long been known to favor letting Italy administer these colonies, which the treaty virtually stripped from her.

Russia also has stated willingness to have administration of the colonies revert to Italy.

The United States is also believed to go along with France. British position has not been made clear.

### Says America Must Remain Strong

Washington, March 23 — (AP)—Joseph C. Grew told senators today that America must remain strong so countries overseas will choose our side and become our allies.

Grew, former U. S. ambassador to Japan, urged the Senate Armed Services Committee to move speedily for passage of limited draft and universal military training laws.

America cannot afford to face some future day when it will stand alone without allies, Grew said, adding:

"We must so evidence our strength and readiness and our firm intention to maintain that strength that the countries overseas which some time may have to make a decisive choice, will choose our side."

Chairman Gurney (R-S.D.) reported that 10 of the 13 members of the Senate committee are convinced such measures are an absolute necessity. The committee is holding hearings on the proposed laws.

Grew was a diplomat in Germany before World War I, and was in Japan prior to World War II.

He referred to the present as "this serious if not critical moment" in world affairs.

An important result in starting UMT now, Grew said, would be to give the world a psychological impact both on aggressive-minded and on peace-minded nations abroad.

Grew appeared on behalf of the National Security Committee of which he is a national chairman. Gurney and nine of his colleagues were the only senators present during a 50-minute meeting behind locked doors with Secretary of State Marshall, Secretary of the Army Royal.

Most of what the three secretaries said was not reported.

## Truman Will Not Quit Trying for Nomination

Washington, March 23 — (AP)—Senator Hill (D-Ala.) called today for President Truman's withdrawal from the Democratic presidential race. But Senator Hatch (D-N.M.) said the president will not quit.

Hatch told a reporter he has it from Mr. Truman himself that the president will "fight through to the end" to whatever political fate awaits him.

Hill had announced previously his support of Mr. Truman for the party nomination. Today he withdrew his support in the face of mounting Dixie resentment against the president's civil rights program. Hill said in a statement:

"The situation in Alabama and the South today makes it clear that the Dixie bloc of the party is in unity with President Truman as the nominee of the party."

The revolt against the President spread northward, too.

Three Brooklyn Democratic leaders in a letter to the party headquarters announced they will not support the president for the nomination.

Despite these evidences of hostility, Hatch said there is no intention on the part of the president to step aside at the last moment for another Democratic nominee.

"You can say for me—and I have it directly from the president himself—that Harry Truman will fight through to the end," Hatch said.

Hill's departure from the Truman ranks indicated the Alabama senator has concluded that Dixie sentiment will block the president's nomination if possible. Hill is a candidate for convention delegate in his state.

If they fail to dislodge Mr. Truman, the party will be left with the task of arranging to deny their electoral votes to the president.

Hill has been mentioned as a possible compromise vice presidential nominee. He had pleaded with Southerners to fight out their differences within the party.

Presidential Secretary Charles G. Ross had no comment on the statements of either Hill or Hatch.

## Radio Program Theme at Kiwanis Meet

The youth committee had charge of the Kiwanis Club program today and Rev. W. P. Hardegree, chairman, introduced George Frazier, local radio announcer who is director of the Kiwanis-sponsored Youth Center.

A transcription was played of the recent Heart's Desire program on which Frazier's letter requesting items for the center was read. The Youth Center will open Saturday, April 4, at 8 o'clock.

Directors besides Mr. Frazier are Mrs. B. E. McMahon and Mrs. Bill Kettner.

A plea was issued for occasional furniture and lamps for the center.

Guests of the club were Jimmie Smith, Aubrey Enoch and Fred Smith.

## Gov. Laney's Revolt Against Truman Party Endorsed by County Central Committee

The following resolution was adopted unanimously yesterday by the Hempstead County Democratic Central Committee, it was announced by Chairman W. S. Atkins (and a summary of it was transmitted over the state last night by the Associated Press newspaper and radio wires):

"To The Hon. Ben Laney, Governor of Arkansas, Little Rock, Ark.:

"We, the undersigned citizens of the County of Hempstead and State of Arkansas and members of the Hempstead County Democratic Central Committee, wish to commend you for your expression of dissenting views on the policies of the national organization of the Democratic Party, and to endorse wholeheartedly the stand which you have taken with reference thereto.

"As titular head of the Party in this state it is your duty to speak for the Democrats of Arkansas in the national platform of the party. We are convinced that the national leadership of the party has manifested an increasingly indifferent, and oftentimes antagonistic, attitude toward the interest of this section.

"As we see it, the party has been led further and further away from the principles which many of its national leaders have espoused cannot be reconciled with those with which the Democratic Party has historically been identified.

"We are convinced that unless the leadership of the party can be prevailed upon to recast its policies and fundamental principles of the party transcend in importance the supposed political expedients of the moment, then it is time for us to take whatever effective action is open to us to withdraw our support from them."

"We stand with you in your efforts to rectify the position of the party. If this cannot be accomplished we urge that other means be adopted to make our convictions felt."

U. S. May Back Up British Warning

Lake Success, N. Y., March 23. (UPI)—The U. S. State Department indicated today that U. S. Delegate Warren Austin might back up Great Britain's warning in the United Nations that Communist expansion must be checked even at the risk of war.

The United States which convenes at 2:45 p. m. EST for another round of debate over the Communist coup in Czechoslovakia, braced for a tough answer to Britain's charges by Soviet Deputy Foreign Minister Andrei A. Gromyko.

Vassily Tarasenko, delegate of the Soviet Ukraine, charged the United States with trying to dominate Italy, Greece, all of Latin America "and several other countries" of the world.

He said Americans were behind the move by Chile which placed a gun embargo on Cuba before the council, adding that:

"All this noise about Czechoslovakia—these crocodile tears, are aimed merely at diverting public opinion from these interventions."

Britain's warning, delivered by Sir Alexander Cadogan, was the most resounding assurance on Russian foreign policy yet heard in the Security Council.

"There are limits beyond which this (Communist) tide must not advance and it must be dammed back," Cadogan said.

"Almost everyone in the world must hope fervently that that can be done by peaceful means, but there is an undeniable risk that that hope may not be fulfilled."

Cadogan said he had, however, put Britain on record as favoring any UN action in the case.

Cadogan also said Britain had knowledge of moves designed to help Italian Communists seize power in that country.

Sorority to Select Hope's 'First Lady'

The First Lady of the Year in Hope, Arkansas is to be chosen next week. Sponsoring the event is the Hope Alpha Zeta chapter of Beta Sigma Phi, an international organization of women which is undertaking this widespread recognition of women leaders, community by community, women who have contributed most to community development in one phase or another.

The choice will be based on accomplishments in cultural or civic work, home-making, business or other outstanding community activity.

Women everywhere, according to Beta Sigma Phi, are giving their efforts to bettering their communities. It is for this reason, the organization believes recognition is due the First Lady of the Year in every community.

Beta Sigma Phi centers its activities on cultural and social development and in addition, its more than 65,000 members in the United States, Canada, England, Scotland and the territories of Hawaii and Alaska, devote much time and effort, as well as giving financial aid to many worthy community service activities.

## Precincts With Less Than 25 Votes Eliminated

In other action yesterday the Hempstead County Democratic Central Committee abolished 3 precincts cutting the county total to 33. Precincts abolished were Tokio, in northwest Hempstead; Union, north of Ozark and Battlefield, south of Spring Hill.

The group also voted to abolish any precinct in the county that polled less than 25 votes. The three boxes eliminated have polled from 10 to 15 votes in recent elections. It costs approximately \$40 to hold an election at each box, thus at least \$120 expense was eliminated by this action.

Some discussion was devoted to possible installation of voting machines and a committee was appointed to investigate the cost.

Election dates were fixed for Tuesday, July 27, and Tuesday, August 10.

The following fees for filing corrupt practice pledges were set:

County Judge	\$250
Treasurer	300
Co. Clerk	300
Tax Assessor	250
Circuit Clerk	200
Sheriff & Collector	300
Coroner	10
Surveyor	10
Representative	50
Constables	5

## House Group to Accept Senate Bill

Washington, March 23 — (AP)—The House Ways and Means Committee voted 13 to 5 today to accept a \$4,800,000,000 income tax-cutting bill passed by the state.

The original tax bill passed by the House had called for a cut of \$4,000,000,000.

The committee action is subject to House approval. It virtually assures that the Senate bill will go to the White House without change.

House Speaker Martin (R-Minn.) previously has predicted the House would approve the measure by a "more than three to one" vote and send it to President Truman's desk tomorrow.

Chairman Knutson (R-Minn.) author of the tax-slashing legislation, told reporters:

"I hope the president will fall in line with the popular demand for tax reduction, and will not veto the bill. If he does veto it, he is sure to be overruled."

The Senate passed the bill 78 to 11.

"The tax cut is certain. The veto will be overridden," Speaker Martin said.

But Senator Taft of Ohio, chairman of the Senate's GOP Policy Committee, was less positive.

Nearly everyone on Capitol Hill looks for Mr. Truman to veto the bill.

Taft told a reporter he thinks the president first will send Congress a message urging an additional outlay of between \$2,000,000,000 and \$3,000,000,000 for military preparedness as part of this country's new anti-Russia policy.

"We don't know what effect that will have," Taft said.

However, an administration official who asked not to be quoted by name agreed with Martin. He said he saw "a chance" that a one-third-plus-one vote can be mustered in the Senate to uphold a veto.

Martin said House Republicans would try to get the Senate to pass a version approved by unanimous consent today.

But Democratic Leader Rayburn, of Texas, served notice he would put a stop to that. Hence it appeared unlikely that the House could get around to a vote until tomorrow.

Rep. Knutson (R-Minn.), author of the original tax cutting bill, announced he is ready to accept the Senate revisions. They trimmed the amount of the tax slash from \$6,500,000,000, as approved by the House, to \$4,800,000,000.

House acceptance of the Senate figure will speed the measure to Mr. Truman. The president used his veto power twice last year to kill two Republican attempts to cut taxes by \$4,000,000,000.

Bodies of War Dead to Be Returned

## Mine Workers Reject Plan to End Strike

Washington, March 23 — (AP)—The United Mine Workers today rejected a government plan for ending the soft coal walkout. Cyrus Ching, federal conciliation chief, promptly went to the White House to report the union action.

Ching's move apparently was the first step toward invoking the Taft-Hartley law to halt the nine-day-old strike which has crippled railroad and steel mill operations.

Under that law, President Truman is empowered to set up a board of inquiry. After the board reports, the attorney general could ask for the injunction.

Creation of the board was urged by Senator Ball (R-Minn.), chairman of the Senate-House "watch dog" committee on operation of Taft-Hartley act.

Ball talked to reporters after the group met to study the coal dispute. He emphasized that he was speaking only for himself in urging the emergency action.

The committee had not been informed when the meeting ended that the UMW had rejected Ching's plan for ending the strike. Ball said there had been no "direct action" to settle the dispute and that the committee will meet later to decide its course.

The government settlement proposal was turned down in a letter sent to Ching by a three-man

## Mine Workers

Continued From Page One

UMW committee which received the offer yesterday.

John L. Lewis, UMW president, did not sign the rejection personally.

The committee termed the government proposal "grotesque." Ching's proposal, which was accepted "reluctantly" by the mine operators yesterday, called for creation of a fact-finding board to investigate disputes over miners' pensions that touched off the walk-outs.

However, Lewis would have to send the miners back to work before the plan would go into effect.

The UMW committee advised Ching that the proposal was made to "aid the coal operators, who have dishonored their work agreement and to further defraud the beneficiaries of the welfare fund."

The welfare fund to which the committee referred was set up in the work contract signed by Lewis and the operators last year.

Lewis wanted to use the fund to pay the miners a \$100-a-month pension. The operators balked at his plan, saying the union chief wanted to give pensions to miners who were not entitled to them.

Lewis charged the operators by their stand had "dishonored" the contract.

With that apparently in mind, the UMW committee told Ching today:

"There is only one issue: i. e., shall the existing agreement be honored?"

The letter went to Ching, less than an hour before noon deadline set by the conciliation chief.

## Truman Will

Continued From Page One

said he talked with Mr. Truman on the telephone. He said the president—far from being downhearted at the turn of political events—seemed "exuberant."

The New Mexico senator said he attributed the president's attitude to the decision "to forget all about politics," adding:

"I'm not sure but that's the best kind of politics in the end."

Another senatorial friend said Mr. Truman already is following this course. He noted that the president made a politically unpopular move in approving an about-face on the partitioning of Palestine.

This senator recalled that when Democratic National Chairman J. Howard McGrath announced Mr. Truman's willingness to accept the nomination several weeks ago, McGrath said the president would act on the Palestine situation "without regard to politics."

Capitol Hill harvests a new crop of rumors about Mr. Truman's political intentions almost daily.

Most have centered around reports that at the last moment the president would announce that he didn't care to run again and might suggest a successor.

Some of these have stemmed from statements such as they by Senator Sparkman (D-Ala) last week calling on the president to withdraw. Sparkman, running for reelection to the Senate, formally was a strong backer of Mr. Truman.

Meanwhile, Supreme Court Justice William O. Douglas who has been mentioned as possible running mate for President Truman, told a University of Florida audience last night that this country will "perish miserably" if it shapes its policies "merely in terms of anti-communism," he added.

"We must put an end to the shameful practice of branding everyone a Communist who espouses a liberal reform or promotes a program for the underprivileged."

## Daily Bread

These things are common and voluntary practices of the press.

Why are the fearful so certain that it would be different in radio? Radio is over 21 now, and a responsible industry. It is more competitive than the newspaper business. Why should anyone assume that the industry, en masse, would try to poison the public mind?

The federal gag on free expression and the demand for its continuance betray an almost insidious lack of faith in the people who operate radio stations. They betray an almost equal lack of faith in the public intelligence.

The awful dangers pictured can't really be so bad. If truth or error is the question, the listener can check with his newspaper. If it's a matter of opinion, the listener can take it or leave it, as he does his role of newspaper reader. The radio people at least should be given a chance at the constitutional guarantee of free expression.

## Army Sergeants Convicted of Stealing B-17

Balboa, C. Z., March 23 — (AP) — Two U.S. Army sergeants were convicted last night of swiping a flying fortress for a 1,700-mile joyride over the dangerous Andes from the Galapagos to Venezuela. It was their first time at the courts.

The formal army charge upon which they were court-martialed was: "misappropriation of government property."

The court martial which tried the two soldiers—M-Sgt. Glen D. Woods of Munroe, Ind., and S-Sgt. Theodore S. Havens, Jr., of Washington, N.J.—did not announce sentence. The court's verdict is subject to review by higher authority, both here and in Washington.

The sergeant was accused of taking the only B-17 in the Galapagos Islands, on the equator 730 miles off the coast of Ecuador, for a jaunt to a field near Caracas on Feb. 23. They said they had planned to go to Trinidad, but ran low on fuel.

Both Woods and Havens had wartime flying experience, but not as pilots.

Woods said he flew the plane on the trip, doing just what he had seen pilots do. He said it was easy.

GRAIN AND PROVISIONS

Chicago, March 23 — (AP) — Sustained buying was lacking in the grain pits at the board of trade today. There was some early buying credited to commercial interests, but during the greater part of the session small lot selling held all rallies to small advances.

Traders said there are indications that the Commodity Credit Corporation has completed its April allocation of 8,600,000 bushels of wheat.

Corn bookings were placed at 2,000 bushels against sales of 12,000 bushels.

At the close wheat was 1-4 to 1-3-4 higher than the previous close. May \$2.36-2.38 1-2, corn was 1-4 to 1-2 higher, May \$2.10 1-4-1-2, oats were 3-4 higher to 5-8 lower, May \$1.10 3-4-5-8. Soybeans were unchanged to 1 cent higher, May \$3.45.

No wheat was sold in the cash trade today and the basis was quoted nominally unchanged; receipts 16 cars. Corn was unchanged to two cents higher; basis unchanged; bookings 2,000 bushels; shipping sales 12,000 bushels; receipts 40 cars. Oats were unchanged; basis unchanged to two cents lower; shipping sales 14,000 bushels; receipts 16 cars. Soybeans receipts four cars.

NEW ORLEANS COTTON

New Orleans, March 23 — (AP) — Cotton futures declined in the early trading here today, but rallied in the afternoon on trade buying and

## Paper Apologizes to Hollywood Couple

London, March 23 (AP) — Film Actress Paulette Goddard and her husband, Burgess Meredith, accepted today an apology from the Sunday Pictorial in full settlement of a libel action.

Frederic Mullally, one of the newspaper's columnists, wrote last week an article in which he had bought antique furniture with money earned making a film in England and sent the goods to the

Spots of strength remained in today's stock market although many leaders stumbled, and activity waned.

Dealings expanded a bit after a relatively quiet forenoon. Initial declines were erased in numerous cases and replaced with modest plus signs. Assorted coppers, steels, oils, rails and industrials gave a good account of themselves. Quotations slipped here and there in the final hour.

At the close gains of fractions to a point or so were plentiful. Transfers for the five hours tapered to around 1,100,000 shares from 2,400,000 Monday which were a top since last April.

In the losing ranks were Chrysler, General Motors, Bethlehem Steel, Glenn Martin, Douglas Aircraft, General Electric, Allied Chemical, American Tobacco, E. I. du Pont, Twentieth Century-Fox, Mission Corp. and American.

Ahead most of the time were Kennecott (at the year's best level, Anaconda, Phelps Dodge, U. S. Steel, Republic Steel, Denver Rio Grande Western (at a 1948 peak), Santa Fe, Southern Railway, Montgomery Ward, Schenley, International Telephone, Westinghouse Electric, Owens-Illinois, U.S. Gypsum, Warren Petroleum (at the year's high), Pacific Western Oil and Standard Oil (N.J.).

Individual railway bonds did better.

## Rainy Weather is Duck Soup to the UNIVERSAL Jeep

"LET IT RAIN IF IT MUST!" That is what you will say if a Universal "Jeep" is at work on your farm. Just put on the top and get on the job. With the steady traction of its 4-wheel drive the "Jeep" just keeps on pulling, in spite of soft ground or slippery footing. You don't have to worry about 'impassable' roads. Four-wheel drive takes the "Jeep" through, helps you with spring towing and hauling jobs that must be done.

## GET A "JEEP" AND GET GOING

There are plenty of jobs the "Jeep" can do on your farm right now. When field tasks are completed or road work is done, your "Jeep" need not stand idle. Its power take-off delivers up to 30 h.p., operates many kinds of implements and farm machinery, helps make the "Jeep" America's most versatile farm tool.

## AS LONG AS I LIVE

By Ione Sandberg Shriver; DISTRIBUTED BY NEA SERVICE, INC.

Once again it was morning. Surprisingly she had slept well, soundly. And she wakened to the smell of coffee perking in the kitchen, the crackling of fire logs in the fireplace, the sounds of Rush made moving about the kitchen.

She stretched, under the light covers, yawned, and stretched again. She blinked against the bright sunshine that streamed in through the open windows. She yawned widely and rolled over.

Rush was standing in the doorway looking at her. She looked back at him, a straightforward, unafraid look, and she thought to herself, I'm going to pretend I don't know. I'm going to pretend everything just the way I want it to be, just the way I thought it was going to be. I'm going to close my eyes and then, when it comes...

"Good morning, darling," Rush said. "Sleep well?"

"Wonderfully," she announced, sitting up. "That coffee smells heavenly."

"Bacon and eggs coming right up," he told her and went back into the kitchen.

It was difficult for her to believe, as she and Rush took their breakfast trays to the big screened porch that overlooked the lake, and sat there eating bacon and eggs and hot toast and hotter coffee, that they were not just a couple of ordinary people, a man and wife, for a few days alone, happy and healthy and enjoying themselves. Part of the difficulty in believing it, she realized, lay in her reluctance to believe evil of Rush, indisputable as the evidence was, every fibre of her being echoed to deny it. But wanting something—even as dreadfully as she wanted to believe Rush—wasn't enough. She couldn't change the facts.

It was almost noon when Rush suggested the canoe ride. They'd just been lazing around all morning, lying on the hot sand in their bathing suits, soaking up the sunshine.

"Haven't been canoeing for ages," he said thoughtfully, scowling into the sun. "Do you suppose I could manage one?"

"Probably," she said tranquilly, beat a little faster there was no way he could know it.

It took him an hour to lug the canoe from the boathouse where it had been stored clean it all out, find the backrests, hunt for pillows.

All the while he was getting ready she kept lying on the same thing to herself. When he'd set it I won't go. I'll say I don't like canoes. I'll say I don't feel up to it. I'll say...

And then Rush was saying, "Come, honey, let's go and sit was getting to her feet and walking across the sand to the dock. It was as though she were hypnotized.

So said, as he helped her into the canoe. "Don't go out very far, Rush. I don't swim well, you know."

He flashed her a strange look. "You're not going swimming, angel puss," he said. "You're going canoeing."

It was fun, at first, going up the waves with one sweep of the paddle, then down them. It was like

## DOROTHY DIX Thoughtless Divorces

### The Doctor Says:

BY EDWIN P. JORDAN, M.D.

Written for NEA Service

There are small glands lying next to the kidneys called the adrenal or suprarenal glands. Since there are two kidneys, there are two adrenals. They belong to the glands of internal secretion. They contain several kinds of cells which form hormones which flow into the blood. Addison's disease is a relatively rare condition, in which these glands are severely damaged or destroyed, usually by tuberculosis. It received its name from a famous English physician, Thomas Addison, who first described the condition in 1855.

**SKIN BECOMES BROWNISH**

Addison described the characteristic symptoms as anemia, languor or general weakness, feeble beat of the heart, irritability of the stomach, and a peculiar brownish mace in the color of the skin. General weakness and the result of married couples longing for freedom, and their belief that they wouldn't have a care in the world if they were rid of their present mates.

**Women, Greater Offenders**

This is especially true of women, who are the chief patrons of the divorce courts. I get thousands of letters from wives who write: "I hate to break up my home, for I have such a beautiful house, but I want to go to Hollywood and be a movie actress." Or: "I hate to break up my home for my husband is such a good provider and so kind but he never takes me out to places of amusement." Or: "I hate to break up my home because my children are so fond of their father, but I might as well be married to a dummy for my husband never talks or tries to entertain me."

And so on and on, and it is appalling to think how many women who are married to men who are kind and generous and good providers, divorce them because they are not glamorous. They never stop to count the cost when they throw their meek tickets into the discard until they are living on grudgingly given alimony. In less do they appreciate the deadly wrong they do their children in depriving them of a father's love and care and money.

These divorcees, who expect to

**QUESTION:** I perspire a great deal at night, although sleeping under a light feather quilt. Does this mean anything?

**ANSWER:** Night sweats can be sign of disease. If certain disease is not responsible, then the coverings used at night should be those which are most comfortable and one should not worry about the sweating.

**Woodmen to Hold Fish Fry at Fair Park**

Woodmen of the World will hold a fish fry Wednesday night at 8 o'clock at Fair Park, it was announced today. In event of rain the fish fry will be held at the WOW hall. All members and wives are urged to attend.

If husbands and wives counted the cost of a divorce before they got one, it would do more than any other one thing to put a crimp in the home-wrecking industry. But they don't. They figure it out in their heads to be all gain. You swap off a husband or wife, who has gotten on your nerves and of whom you are tired, for a glamorous new mate. Your decree absolute works a miracle that makes you young and gay again, and there you are, trim, trim, singing a merry roundelay!

Millions of men and women are sold to the belief that a divorce is a sure cure for all of their matrimonial ills, and as it is so easy to get one, why put up any longer with Jane's nagging and John's grumpiness? Why bother with a mate for whom you have lost your taste any more than you would with an old model automobile or a hat that no longer fits your fancy?

Of course, we all recognize that there are marriages in which divorce is a sad necessity. It is the surgeon's knife that cuts the cancer in cases where the husband is a brute and the wife a virago, but such instances are comparatively rare. The great majority of divorces are the result of married couples longing for freedom, and their belief that they wouldn't have a care in the world if they were rid of their present mates.

I offer for your historical education a letter from John J. O'Connor, formerly a New York Democratic congressman who was the only victim of Franklin D. Roosevelt's effort to purge the party of all those who opposed his attempt to corrupt the entire federal judiciary through his court-packing scheme.

Mr. O'Connor has been smeared for years as he knew he would be when he challenged the White House circle of political degenerates, some of them morbid fugitives from the slums of continental Europe. He is, nonetheless, a respectable American and member of the bar which he suffered much to protect. His own brother, Basil, or "Doc," carries on the Roosevelt tradition as chief of the American Red Cross, boss promoter of the Warm Springs thing and a trustee of the late Moosejaw's estate.

Bear in mind that John O'Connor was a big man on the inside until he fought Roosevelt to preserve the independence of the courts.

"Your articles about Henry Wallace are particularly of interest to me because 'I know the man'." Mr. O'Connor writes. "If all the dirt in the morgue of the modern newspaper could be piled up and the end of a dock, a considerable contribution would be made toward restoring the America that was before the New Deal."

Wallace is not any different to day from what he was in 1933 when, as a Republican, he joined with the nondescript New Deal as secretary of agriculture. From then on he divided his time between trying to make himself president and expounding un-American and communistic views. His writings concerned chiefly changing our constitution entirely doing away with our supreme court, and other totalitarian ideas which he often discussed at one while in the chair of the House Rules Committee. The simplicity of his approach is a real danger. He wouldn't harm a cat, except to throw it out of the country.

"I can recall distinctly on several occasions about 1935 telling him he did not have a Chinaman's chance of becoming president because of his record. He would not listen to me. He would only say, 'I am a Communist. He would protest, with that strange laugh of his which, at times and for no reason, has endured for as long as two minutes."

"His pretense of idolatrous worship at the shrine of Roosevelt (the Planning One) is ridiculous. To my own personal knowledge, in the first half of 1940, he was in a conspiracy with other mentally like him, to elect Roosevelt to a third term. He would not listen to me. He would only say, 'I am a Communist. He would protest, with that strange laugh of his which, at times and for no reason, has endured for as long as two minutes."

"But what I started to write you principally about was those Guru letters and his tie-in with Roerich's circle in the Riverside drive. (This refers to Nicholas Roerich, the Russian Oriental deity who held forth in a 'heaven' frequented by not only Wallace but Senator Robert Wagner and Representative Charles McNary of the House Committee on Foreign Relations. The place was not only a mystical temple but an apartment hotel. Bloom has admitted that he was provided with private living quarters there. As whether he paid rent there is a difference of recollection between Sol and other intimates of the lamasery. W. P.)

"During the 1940 Democratic convention, Mr. O'Connor confided to me that he had been in the quarters of the big shot New Dealers who were located. Roosevelt had promised the vice presidency to 13 Democrats such as Jesse Jones, Bain Brantley, Cordell Hull, Senator Barkley and Speaker Bankhead. When he decided to switch to Wallace to make a special appeal to the foreign-minded element, all the other twelve laid down cold except Bankhead, who discussed it with me and then decided to enter the race despite a soothing telephone call from Roosevelt. Bankhead was mad and would have been nominated had not Tammany sneaked out of the convention before the voting under the pretense of getting a train back to New York.

"Roosevelt had always threatened to use the income tax to send them all to jail. The same threat he held over the head of the Democratic leaders such as my friend Mayor Ed Kelly, of Chicago, and Frank Hague, of Jersey City.

"At that, the vote between Wallace and Bankhead was close and on the second ballot, Bankhead would have won. Henry was running around the platform with his chief manager Joe Guffey, soliciting, was parliamentarian (adviser on rules) of the convention. While Wallace had more votes than Bankhead he did not have a majority. A question arose whether he was nominated. I advised Chairman Barkley that, having received a majority of the votes cast, a quorum having voted, he was properly nominated. My heart

# SPORTS ROUNDUP

By Hugh B. Fullerton, Jr.

New York, March 23 — (AP) — Peppy Little Mike Peppy, Ohio State swimming coach, predicts that his team will win the National Collegiate A. A. team title this week-end by at least two points, if the Bucks' Bill Smith is ready and right. That seems to be a fairly good prediction, since rival coaches are virtually conceding State a clean sweep in the fancy diving events. But it still is a radical departure from the fearful tradition of coaching. Amateur Coach Kossis and pro Skip Alexander have been nominated by a vote of ex-champions in their fields the most capable players not previously invited to play in the Augusta Masters Golf Tournament.

One American Association bill club reports it has improved quarters for umpires by purchasing new chairs — adding pointedly, "rockers."

It happened during a spring football scrimmage at the University of Florida. A player failed to be called across the line and the coach called across the line. "The coach, unable to identify the casualty as a right or left half, asked, 'What kind?' In unison three voices came out of the huddle: 'A good one.'

was on the other side, with Bankhead, Guffey and the other henchmen were checked at the honesty of my ruling.

"Before that day, two gentlemen from New York came to my headquarters and said it was their duty to lead the Democrats to disclose to the public the probability that a scandal would break due to Wallace's association with Roerich's circle in the Riverside drive. They told me about Wallace's visits to Roerich's circle in the Riverside drive. They told me about Wallace's visits to Roerich's circle in the Riverside drive. They told me about Wallace's visits to Roerich's circle in the Riverside drive.

"I used to be the very word they used. Mr. O'Connor's recital continues. 'Not in the sense of but religious or Oriental, or what. They said they wanted to be introduced to Jim Farley and other Democratic leaders. They reported that they had been told by Farley and Ed Flynn (who succeeded Farley as chairman of the Democratic National Committee, W. P.)

"Incidentally, although Farley bears an extraordinary reputation as a truthful man, I doubt his sincerity in his comments on the Gur letters and on Wallace's association with Roerich. I think he knows practically the entire story but was compromised himself by his failure to denounce the whole business. That would have been a course loyal to the party and Roosevelt but potentially disastrous to the nation. Having held his tongue then, Farley couldn't talk now except to accuse himself.

"It is only fair, I submit," Mr. O'Connor writes, "that the public be informed that the first disclosure of Wallace's cultist did-dlings did not come from the Republicans and that the Democratic New Deal high command knew all about the carryings-on before they nominated Wallace. Don't forget to include Senator Robert F. Wagner of New York, who was one of the chairmen of the platform committee.

"For years there was common talk about Henry's occult monkey-shines including the fact that he practiced black magic in his office. (The Tibetan who advised Henry about killing off the little pigs and plowing under corn." (Mr. O'Connor may refer to a Gurur from Houston, Tex., boss of an esoteric cult, who did hold sway in the Department of Agriculture for a time. Of this one, more another day.)

"Sincerely yours, (signed) John J. O'Connor."

# Two Trainers Suspended at Hot Springs

Hot Springs, March 23 — (AP) — Two more trainers, W. K. King and G. Boston, have been suspended by Oaklawn Park stewards on charges of stimulating race horses.

The stewards, who last week suspended Trainer K. J. Ness for spring meeting on a similar charge, said the cases had been referred to the Arkansas Racing Commission.

The announcement said King's suspension resulted from a test on Sorrelch, longest winner of the eighth race Thursday, which "showed a positive reaction" to a stimulant.

The stewards said Boston was accused of stimulating of June First, entered in the eighth race Saturday but ordered scratched by the stewards.

# Cards Boost Best Staff of Hurlers

St. Petersburg, Fla., March 23 — (AP) — Potentially the St. Louis Cardinals have the greatest pitching depth in the National League, and that doesn't mean the chuckers always are in a hole.

Dyer, if all the moundmen turn out as he hopes, can start a new man on the mound every day for nine straight days, having double headers.

It would be almost too good if there's a prospect materialized, but here's the dream as it is right now:

Murry Dickson — a jigger-sized right handed veteran who looks great this spring after a rather disastrous season for him, last year.

Harry "The Cal" Brecheen — reported late and has not done much yet, but has the record of being a reliable performer who is particularly tough when the chips are down.

George Munger — Looking pretty good to date, with prospects of steady improvement. Won 16 games and lost five for the Cards last year.

Howie Pollet — Spelled with a question mark. The erstwhile star had an arm operation during the winter and whether he can come back is guesswork. Hasn't tried to come on yet except once, when he said it hurt severely. Is really the key man, if there is one.

Jim Harn — a big, strong right hander who won 12 games while losing seven last year.

Alpha Brantze — Looking great. The slicker-ball southpaw won 11 and lost 8 in 1947. Seems a cinch for a good year.

Ken Burkhardt — Used mostly in a relief role last year, but is showing so much stuff he might land a starting berth.

Clarence Beers — a right-handed rookie fresh from a great season with Houston. Like any rookie, what he can do against Major Hitters remains to be seen, but his outlook is promising.

Alfred Papp — another Houston rookie with a 21-10 record behind him in the Texas League. Also a good prospect.

## Compromise on Rent Bill in the Making

Washington, March 22. — (AP) — House and Senate conferees began writing a rent control compromise today with neither side ready to yield.

The biggest stumbling block is whether to give local rent boards full and final authority to raise ceilings or to lift controls entirely. The present rent control law expires one week from Wednesday.

House members of the conferees committee which must resolve differences between the two versions are pledged to fight for such a home rule provision. The Senate is opposed to it.

Chairman Tobey (R-NH) of the Senate Banking Committee predicted the Senate will not back down.

And another member of the group, Senator Flanders (R-Vt.), said House insistence on its provision may be aimed at killing federal regulations entirely.

Flanders told a reporter he thinks it is possible that the conferees may reach a stalemate on the issue.

In that event they could (1) return to the House and Senate for further instructions, (2) seek a new emergency stopgap to try to work out a compromise or (3) allow the rent law to die March 30.

"I'm just questioning whether the let-it-die thing may be the purpose of the home rule provision," he said.

## Sabotage Charged in Slav Coal Mine Explosion

Belgrade, Yugoslavia, March 22. — (AP) — The interior ministry said today a coal mine explosion March 14 at Racha which killed 71 workers was caused by a diversionist group, Racha is on the Istrian peninsula, near Trieste.

The interior ministry, which investigated the explosion, said documents found disclosed the blast was caused "by order from outside."

## Draft Laney Group to Meet in LR

Little Rock, March 22. — (UP) — The Draft Laney campaign appeared to be gaining momentum in Arkansas today with the announcement that several prominent Arkansas men will meet here tomorrow to discuss a formal organization.

"The meeting is being planned, and I think it will materialize," said State Highway Commissioner Dan Felton of Marianna, identified for some time as a leader of the move.

Felton denied, however, that he was heading the project.

"I am just one of the men who will gather to discuss setting up an organization," he said.

Felton conferred with Gov. Ben Laney in Little Rock Saturday.

After the conference, Laney said he repeated his stand that a draft movement would have to gain "enormous proportions" before he would reconsider his Jan. 19 decision not to run. He said again that even then his decision might not be to run.

Felton said Dan Portis of Lepanto and Carl Hendrix of Horatio planned to attend tomorrow's meeting. He said, however, that Jim Crain of Wilson, prominently mentioned in the campaign, would be out of the state.

The latest to take his name out of the running was Lieut. Gov. Nathan Gordon of Morrilton who announced he would seek re-election. The second man to move out of the picture was Francis Cherry of Jonesboro who filed his party loyalty pledge Saturday as a candidate for re-election as 12th district chancellor.

## Hope of Rebuilding Germany Into Peaceful Nation Receives Another Setback

By SIGRID ARNE  
(For Dewitt MacKenzie)

Russian actions in Berlin the past few days make it look as though another dead end has been reached for the German people. The hope of rebuilding Germany into a healthy, peace-loving nation.

Since the end of the war Berlin has been the place where the four occupying powers—the Americans, the British, French and Russians—have worked together in a council. Each power controls a portion of the city, although Berlin itself lies in the eastern section of Germany which Russia occupies.

But now the Communist papers in Berlin are suggesting that the Westerners get out.

And Saturday the Russian delegate, Marshal V. D. Sokolovsky, walked out of a council meeting.

The Russians claim the three Western powers have broken all their pledges to run Germany as a unit. But that is exactly what the Russians have thought of since 1947. The immediate action was to force the British, French and Americans to meet in London last week to agree to plans which the other three approved.

The most annoying difference has been over the use of goods which the Germans themselves produced. A definite plan was laid for them at Potsdam, where the Americans, British and Russians met in midsummer 1945 to plan Germany's future.

They agreed that any surplus goods turned out by the Germans should be put into a pool. These pooled goods would be sold abroad to pay for things the Germans would have to import.

The Westerners waited for some move from the Russians to chip the German food was grown in the Russian zone. But as the months passed no goods were shipped. The Russians made no reports on what their sector was doing. No officers from the Western powers were permitted to take a good look-see at the Russian sector.

And while this was happening British and American taxpayers were asked to shell out hundreds of millions to feed the Germans in their area.

At any time the British and Americans could have claimed the Russians were failing to meet their Potsdam pledges.

Instead they trudged faithfully to the council meetings in Berlin and continued to run their sectors as best they could.

Finally, (early in 1947), the British and Americans merged their sectors in all business deals to try to bring down the cost to the folks at home. They left the gate open for the Russians, but no Russian looked-see at the Russian sector.

Last week the Americans, French and British met in London to talk just about western Germany. American goods will shortly begin to move into western Europe, and western Germany has to be fitted into the picture because it can contribute steel to the general rebuilding of Europe.

Thereupon Sokolovsky read an angry speech to the council in Berlin—and walked out. Yesterday the Russians, being chairman this month of the council committees in Berlin, called off committee meetings.

Does it mean they are through with cooperation with the Allies over Germany's future? Will they continue to boycott council meetings next month, when the Americans become chairman of all the committees?

That Berlin council is the only bridge between the east and the west over which men of good will can travel to create a Germany that can be left to grow up alongside other trustworthy nations.

The Russians stand to gain if they break up Allied control of Germany. Their troops already occupy eastern Germany. If the Allied council breaks up they could merely add eastern Germany to the large area of foreign aid they now control.

The next step is up to the Russians. They can get over their peevishness and continue to attend the meetings, or they can boycott them.

If they boycott them, the three Western powers could go on holding meetings that will have no effect on eastern Germany and hence will have little hope of ever uniting all of Germany together.

The Russians could get tough. They could insist, with troops on what their papers are now saying: That the Westerners leave Berlin—which would leave eastern Germany in Russian hands.

There is no official information in Washington on what the United States would do if Russian bayonets suddenly were turned against the handful of American troops in Berlin. But off-the-record statements remind you that Americans don't like to be thrown out of places.

## Both Houses Speed Bill to Halt Russia

Washington, March 22. — (AP) — Both branches of Congress teamed up today in the race with time to speed American dollars on a global mission against communism.

The House turned to debate its \$2,205,000,000 single-package bill carrying military as well as economic help for Europe and Asia.

And in the Senate, the \$275,000,000 fund to supply Greece and Turkey with arms and military know-how headed for possible passage by nightfall. In its wake was another to give China \$163,000,000 for both civilian and combat use.

The goal is to lay the whole set of bills before Senate and House conferees by late next week to work out a single legislative weapon for the cold and warm wars alike.

Meanwhile, President Truman's related plea for a revived draft law and universal military training won potent backing in the Senate.

Ten of the 13 members of that chamber's armed services committee were described by Chairman Gurney (R-SD) as already convinced that both steps have become an "absolute necessity."

Those who heard a 50-minute, top-secret summary of the work of State Marshall, Secretary of Defense Forrestal and Secretary of the Army Royall.

The House meanwhile heard an echo of Mr. Truman's promise that this country has become the protector of free peoples threatened by Communist domination.

Rep. Eaton (R-Ill.) laid the global assistance bill before his colleagues with the declaration that the measure is "the voice of the American people" answering this question:

"Is the new world civilization to enthrone slaves in every land, with Russia as its instrument of control?"

In a speech prepared for the opening of House debate, the newly-elected chairman of the Foreign Affairs Committee said:

"This is the issue and these are the world-moving forces with which we must deal." Hence, he added, "no sacrifice, no effort is too great for America nor for every other freedom-minded and freedom-loving people to assume."

"There they stand, face to face, America, champion of freedom as the basis of all civilized life, Russia, the champion of slavery as the basis of a new civilization without a soul. This legislation is an announcement to the world of our choice."

mid-April. An American administrator will be appointed. The 16 Marshall plan nations and western Germany will have adopted their permanent organization by that time. The remaining issue will be how to fit them together.

The ministers also are expected to discuss how the three Western powers can bring about the return of Trieste to Italy, French informants said.

The date of Beaulieu's trip, French officials said, will depend on Marshall's return from the Pan-American conference at Bogota, Colombia. This is expected to be soon after April 13.

The ministers will confer on the United States' relations with the 16 nations in the Marshall plan for European recovery and with the five European nations which signed the 50-year Brussels pact they said. Britain and France are members of both groups.

The three ministers also may study the proposed merger of the French occupation zone with the British and American zones in Germany.

When the London conference of the four-power council of foreign ministers collapsed last December, high French officials said the three Western ministers should go ahead with their plans for Germany because it was obvious they could not reach agreement with the Russians.

The way is now clear for a merger of all three zones. The three powers have agreed in principle on several technical matters, including control of the Ruhr, and the form of the German government of the future.

This agreement was achieved at the recent three-power London conference, which also was attended by representatives of Belgium, the Netherlands and Luxembourg. The agreements will be drafted in precise terms at another meeting in early April.

ties said remained cloaked in complete secrecy. But Gurney did report when the session broke up late yesterday:

1. The United States has drawn no line, and does not intend to draw one, as the final limit for Russian expansion.

2. There was a great deal of general, rather than specific, discussion of the "generally critical and more progressively serious situation in Europe."

3. It is my firm belief that the committee—those that were here—left the meeting feeling there is an absolute necessity for quick passage of both (the draft and UMT) measures," Gurney declared.

Senator Bridges (R-NH) added that the armed services must turn for money before the programs can be carried out.

In this connection, Senator Taft (R-Ohio) predicted that Mr. Truman soon will send up a message asking \$2,000,000,000 or \$3,000,000,000 in military expenditures proposed in the January budget message.

Meanwhile, the United States Chamber of Commerce announced its support of UMT as an "essential element in the security program of our country."

The chamber's position was outlined by the Hon. D. Johnston, Roanoke, Va., a director.

"Weakness has always constituted an open invitation for aggression on the part of militarists," Johnston said in testimony prepared for the committee. "No unprepared nation, however peaceful its people, has any assurance of security."

Johnston said the chamber also favors (1) a detailed plan of industrial and economic mobilization (2) balanced stockpiling of strategic materials and arrangements for standby war plants (3) military scientific and technical research and (4) the building and preservation of strong and efficient air strength.

Italy Flatly  
Western powers' proposal to return Trieste to Italy.

U. S. Objects  
Washington, March 22. — (AP) — American officials turned a cold shoulder today on Yugoslavia's offer to "trade" Trieste for the nearby Italian city of Gorizia.

Diplomatic authorities pointed out that the free territory of Trieste does not belong to Yugoslavia and therefore is not hers to put up for bargaining.

Thus officials made plain that while the Western powers are alert to what the Soviet Union and Italy have to say about the disputed area, they are unlikely to pay much attention to the opinions of Marshal Tito's regime.

That was the reaction to the suggestion by Foreign Minister Stanjic Simic that Yugoslavia would consider surrendering its claims to Trieste if given in return the strategic Italian city of Gorizia which lies to the north.

Simic made the proposal at Belgrade shortly after sending formal notes to the United States, Britain and France protesting their proposed change in the Italian peace treaty to return Trieste to Italy. The Yugoslav notes, however, did not commit Tito's government to acceptance or rejection of the three power proposal. Trieste now is under United Nations supervision and protection.

## Charge Greeks Are Using Poison Gas

Athens, March 22. — (UP) — The Greek guerrilla radio, quoted by Radio Moscow, charged today that the Greek government used poison gas in a recent attack in Macedonia.

The gas attack, the broadcast said, was carried out in the Kastoria area on March 15. It added that "responsibility for the use of poison gas rests on American officers and soldiers."

The guerrilla charge coincided with a Greek general staff special communique saying that 693 guerrillas have been killed and 653 taken prisoner in two operations in the northern areas in the past month.

It was not clear from the guerrilla broadcast whether the operation in which it was charged that gas was used was the same as the victory announced by the government. However, both were in the same general area and at approximately the same time.

"The free Greece radio" states that the Greek government army employed poison gas against guerrillas on March 15 in the Kastoria area of Western Macedonia," the Moscow broadcast said.

"The free Greece radio said: 'We protest through the Greek people and world public opinion against this shameful and bestial act from which the civilian population in the area of hostilities is suffering.'"

"It is against all international rules and indicates Fascist Royalist impotence and lack of confidence. Responsibility for the use of poison gas rests on American officers and soldiers."

The Greek government victories, announced by War Minister George Stratos, were described as the biggest operation since the Konitsa battle when the forces of Gen. Markos Vafiades were defeated in an effort to seize a town on Greek soil for a guerrilla capital.

Stratos said 553 guerrillas were killed, 638 captured and 191 surrendered in the Maronea-Pieria mountain area of Northwestern Greece in a continuing operation since Feb. 21.

Another 140 guerrillas were killed, 65 captured and 31 surrendered in the Serrai area of Eastern Macedonia, Stratos said.

Government losses were listed as dead, 109 wounded and 27 missing in the Olympus area. Seven were killed and 17 wounded in the Serrai area.
